

WOMEN'S PLEDGE AUSTRALIA

I pledge to uphold clear, sex-based protections for women and girls by restoring biological definitions in law, defending female-only spaces and services (including sport), and ensuring public policy remains evidence-based rather than ideological.

This includes safeguarding women's safety, dignity and opportunity, maintaining accurate sex-based crime data, and meaningfully consulting women's organisations on any reforms that affect their rights.

If elected, I will:

- Vote for or support legislation or policies that protect female-only facilities, fair competition in women's sport, and parents' rights regarding gender-questioning children
- Oppose policies that compel mixed-sex spaces or the medicalisation of minors
- Be transparent about my positions
- Engage respectfully with all stakeholders
- Remain accountable to the women and girls whose rights deserve robust legal protection
